EXPERIENCE

1. HISP RWANDA

Full stack Engineer

Kigali city, Rwanda

Feb 2024 – present

- Contributing to the development and maintenance of information systems that support different countries in achieving digital healthcare delivery by using technologies like TypeScript, Next.js, Node.js, Nest.js, PostgreSQL, and many more.

2. Bank of Kigali Plc

Full stack Developer Intern

Kigali city, Rwanda

Jan 2024 – March-2024

- Contributed to designing and building web applications, turning Figma prototypes into responsive frontends with Next.js and SCSS, while developing robust backends using Node.js, Express.js, and PostgreSQL.

3. TEKYAWE LTD

Founder

Kigali city, Rwanda

June 2022- present

- Designed and developed software applications to streamline enterprise operations and enhance internal management efficiency for businesses of various sizes.

4. Nik's Consulting

SOFTWARE DEVELOPER

Hamamatsu, Japan

June 2022- Nov 2023

- Developing prototypes and implementing final frontend and backend with different web technologies like MERN, PERN stacks or with CMS like wordpress.

5. Kitech Rwanda

Full-stack developer

Kigali City, Rwanda

May 2022- October 2023

- Developed a robust backend server using Node.js and Express.js and building dynamic and responsive user interfaces with ReactJs, Bootstrap and Tailwind CSS.

6. Andela Rwanda

Web developer trainee

Kigali City, Rwanda

June 2022- August 2022

- I excelled in Andela's kick starter web development program with a standout project, recognized as one of the best in my cohort, demonstrating the quality of my work.

EDUCATION

University of Kigali

Bachelor's degree in computer science

Kigali City, Rwanda

Jan 2021- May 2025

SKILLS

Software development , DevOps (Docker, CI/CD, GitHub Actions), database management, version control (Git/GitHub), and cloud deployment.

Languages: Kinyarwanda, English, Kiswahili.
